About Us!

The Set Me Free ProjectSM is on a mission to stop human trafficking through prevention education. Our innovative and age-appropriate Ready to Stand CurriculumSM educates students and families to identify situations that put them at risk and what they can do to ensure their safety. Furthermore, our curriculum aims to empower individuals to recognize every human being's intrinsic value, which is the foundation of our counter-trafficking movement.

We believe that our Ready to Stand CurriculumSM has a place in every school and organization because prevention education is something that not only benefits our community but can have an enduring impact on the world.

READY to Stand CurriculumSM

The foundation of The Set Me Free ProjectSM stands on the belief that every person can stand against human trafficking. Our READY to Stand CurriculumSM uses research-based methods to engage participants in meaningful and fun activities designed to inform and empower.

The Set Me Free Project strongly encourages training educators that are enthusiastic and fun! The topics we cover can be intense, so it's essential to engage them in a way that minimizes stress levels; they'll make stronger connections and increase levels of cognition in those they are educating.
